Public Comment received on 01/03/2023 – from Regan & Laura Velasquez (I will present it at the public hearing. (Concerns with his wastewater – after talking with him – I understand it to be more like irrigation tailings. Velasquez is concerned that his tailings drain towards that property, and he does not want to change their irrigation practices if the Montoya Family plans residential development. Tailings “could” have effect on septic systems and water wells.)
